Medland Trading & Contracting

Sales and services divisions was established to provide quality sales and service support to its valued customers in the state of Qatar. We are professionally managed company with qualified and experienced professionals with access to the latest and quality products from all over the world.

We support all sectors of Oil & Gas, Petrochemical and construction services and procurement requirements. With a wide range of products, MTC has emerged as leading suppliers of Industrial & Construction materials in Doha.

Our main strengths are competitive prices, quality products and a dynamic sales force ready to cater to all your requirements at the shortest possible time. Apart from supplying all types of items, our services division is ready to assist you in any conceivable type of assistance that your firm or employees may require.

Within a short span of time, we have been able to establish ourselves as the preferred agency for the government departments and corporate establishments in the State of Qatar. To ensure quality we deal our business with well known principals who possess quality approvals such as ISO 9000/9001/9002, ANSI Standards, API, BS EN Standards etc...

We are enclosing a representative list of products often handled by us, and would like to note here that we are in a position to procure any type of item, directly, or through our associates in UAE.

May we request for a favor of a personal appointment - for our sales executive, to enable us to present our capabilities, and to discuss any immediate requirements that you may have .
